Sayyid Al-Hakeem: Palestinian Resistance Operations, natural reaction to zionist military machine practices

Sayyid Ammar Al-Hakeem, Head of Al-Hikma National Movement, emphasized that the right to self-defense, land, and sacred places is enshrined in all divine religions, human laws, and international charters on 7/10/2023.

In a tweet regarding the events in Gaza and the "Tofan Al-Aqsa" operation, His Eminence stated, "We are closely following the rapid developments in the occupied territories and the actions of Palestinian resistance fighters deep within the occupying entity. We firmly believe that the right to self-defense, land, and sacred places is enshrined in all divine religions, human laws, and international charters. Therefore, we consider the operations carried out by the Palestinian resistance to be nothing but a natural reaction to the practices of the Israeli soldiers and their military machines, which continue to commit daily tragic and horrifying massacres against our oppressed Palestinian people, including killing, violating sanctities, annexing land, confiscating properties, and undermining human dignity, as well as disrespecting the sanctity of the blessed Al-Aqsa Mosque and imposing restrictions on worshippers of both Islamic and Christian faiths and using it for their provocative Talmudic rituals enforced in the mosque.

H.E. illustrated that the occupiers' behavior contradicts human and international norms and responsibilities, holding the zionist entity responsible for its actions, which have pushed the Palestinian people in the besieged territories to their limit, exhausting their patience. H.E. called on the international community to put an end to the zionist policy in Palestine and to curb the injustices and oppression faced by our oppressed Palestinian people and their just cause.
