Sayyid Al-Hakeem: Gaza Targeting; fully-fledged genocide

Sayyid Ammar Al-Hakeem, Head of Al-Hikma National Movement, called for an immediate cease of military operations on Gaza, illustrating that it is a fully-fledged genocide. His Eminence tweeted on the developments in Gaza on 31/10/2023, “With great concern, we’re following our oppressed Palestinian people being subjected to brutal massacres, the latest of which was committed by the Israeli Entity today in Jabalia Camp, where the brutal military machine intentionally took an entire residential neighborhood, leading to a massive death toll most of which were women and children. The besieged Gaza Strip is under naval, aerial, and ground bombardments, where internationally prohibited weapons, bombs, and white phosphorus are being carried out by the Israeli Entity, this constitutes a fully-fledged genocide recognized by established international treaties. The occupying entity cannot escape accountability as per its classifications. This requires an urgent international intervention to cease catastrophes against livelihood, descendants stopping, systematic depletion, and life in all its intricate details.”
