Sayyid Al-Hakeem increases efforts to anticipate upcoming elections

Sayyid Ammar Al-Hakeem, Head of Al-Hikma National Movement, gathered with a substantial number of organizational leaders from the movement in the southern provinces, commending their dedicated work and stressing the necessity to redouble efforts to achieve success.

His Eminence urged members of the National Wisdom Movement to take pride in their national project, familiarize the public with it, and appreciate its century-long history. He clarified that the movement is dedicated to the public good and aims for a positive impact on the nation.

Sayyid Al-Hakeem called for a reaffirmation of the principles of moderation and centrism, emphasizing that this approach is authentic, deeply rooted, and acknowledged by both allies and competitors. His Eminence asserted that the exclusion of moderate and centrist forces was a deliberate plan to disrupt the political landscape and sideline the comprehensive equation. He also pointed out that Al-Hikma National Movement's presence is synonymous with success and stability, citing historical instances where the movement contributed to stability and success, in contrast to situations where it was absent, leading to turmoil.

Furthermore, Sayyid Al-Hakeem reiterated his characterization of the events in Gaza as a fully dimensioned genocide, emphasizing the imperative to halt the war, provide assistance, and triumph for the remaining values, principles, and laws that have not been violated.
