Sayyid Al-Hakeem lauds Palestinian patients’ spirits, holds international community, Islamic world responsible to defend the Palestinian cause

During His Eminence visit to the wounded Palestinians at the Medical City Hospital in Baghdad, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, lauded the high spirits of the wounded men, women, and children we met were remarkable, as they expressed their hope to return to their country victorious and with their heads held high, God willing. His Eminence illustrated that this visit comes during sorrowful and challenging times for the Palestinian people, marked by the loss of several martyrs in the Rafah camp after the Israeli occupying entity targeted the camp, flagrantly violating all international norms and traditions of war, committing acts of genocide against our Palestinian people. Moreover, H.E. reiterated that the indiscriminate killings place great responsibilities on the Islamic world and the international community to stand in solidarity, support, and defend the Palestinian cause in general, and the steadfast Gaza in particular.

H.E. affirmed that the visit to these wounded on the anniversary of the founding of the Palestine Liberation Organization, sends a message to all Palestinian factions to unite, cooperate, and integrate to achieve a great victory and stand against the brutal israeli aggressions, affirming that Iraq will continue to support and stand by Palestine and its people's cause with all its strength in every possible field, including political, media, relief, and support efforts to assist the Palestinian people.
