Sayyid Al-Hakeem: federal & local governments commit to provide services

In the guesthouse of Sayyids Al Yasser, Sayyid Ammar Al-Hakeem, Head of Al-Hikma National Movement, met with several of their sheikhs and dignitaries in the holy city of Karbala, at the guesthouse of Dr. Sayyid Musafir Al-Yasiri. We reminisced about the shared relationship with his cousins in serving Islam and the nation, explaining the relationship between the political system and external interference. The stronger the political system, the less external interference, and vice versa. His Eminence emphasized that a large part of the problem stems from external forces deliberately hindering progress. He noted that the movement of terrorism and the entry of tens of thousands of terrorists are evidence of a supporting and funding system.

H.E. also highlighted the nature of security developments and the level of safety enjoyed by our provinces, stressing that services are the priority and the main challenge. H.E. stated that the federal government and local governments are committed to providing services and expressed confidence in Iraq's ability to overcome this service challenge, just as it has succeeded in facing security, political, and social challenges. H.E. called on everyone to support and encourage local governments, emphasizing that part of the discourse on corruption is politically motivated and aimed at mutual defamation. H.E. stressed the importance of taking pride in the Iraqi experience and its achievements.
