Sayyid Ammar Al-Hakeem, Head of the National State Powers' Alliance, expressed his consoldation with the Iranian People and Government against the israeli aggression. His Eminence said on social media:

“We strongly condemn and denounce the israeli attacks on several Iranian cities. In solidarity with the Muslim Iranian people, their wise leadership, and their government, we renew our call for the international community to unite in restraining israel’s ongoing violations of international laws and conventions. We caution against israel’s intention to widen its conflict from the afflicted Palestinian and Lebanese populations to Syria, Iran, and other nations. We also urge the United Nations and the Security Council to adopt firm resolutions to limit israel’s destructive actions, which threaten the security and stability of the region’s peoples.

May Allah protect our Islamic and Arab nations from the schemes of aggressors.”
