Model Woman Organization Annual Conference: Sayyid Al-Hakeem Calls for Adherence to Hussaini Path, to Achieve National Goals

During the annual conference of the Model Woman Organization, Sayyid Ammar Al-Hakeem, Head of the National State Powers Alliance, extended his congratulations to the attendees on the arrival of the blessed month of Sha’ban and the auspicious births of the Pure Imams (peace be upon them).

In his speech, His Eminence emphasized the significance of the Prophet’s (PBUH) words: “Indeed, Al-Hussein is the lamp of guidance and the ark of salvation.” H.E. urged everyone to be among those who board this divinely guided ark. H.E. also warned against underestimating minor sins, as they can evolve into major transgressions that become habitual.

Elaborating on the Prophet’s description of Imam Al-Hussein (peace be upon him) as “the lamp of guidance,” H.E. explained that this signifies a righteous path that guarantees guidance to those who follow it. H.E. called on attendees to stand firmly for truth, resist oppression, and reject injustice. H.E. further highlighted that the tragedy of Karbala was not just a historical event but an assault on humanity itself, stressing that responsibility for Imam Al-Hussein’s martyrdom extends beyond the perpetrators to include those who remained silent or complicit.

H.E. underscored the importance of commitment, perseverance, and reliance on Allah in achieving goals with sincerity and dedication. H.E. encouraged everyone to view their efforts as paving the way for the reappearance of Imam Al-Mahdi (may Allah hasten his reappearance).

Stressing the pursuit of excellence over mere accomplishment, H.E. urged a focus on amplifying efforts rather than simply increasing achievements. H.E. also advocated for setting phased objectives, adopting a strong moral model, ensuring access to accurate information, and exercising patience in dealing with diverse perspectives—qualities essential for effective leadership.

On social media engagement, H.E. emphasized the need for strategic outreach, starting from immediate circles and expanding outward, while thinking innovatively to leave a meaningful impact. H.E. also highlighted the importance of positive competition, proactive good deeds, and establishing clear performance evaluation standards.

Concluding the address, H.E. reaffirmed his commitment to the path of moderation, clarifying that moderation is a strength, not a weakness. H.E. stressed the need to remain vigilant of regional developments without exaggeration or downplaying realities while safeguarding achievements in security, politics, and social aspects.
