dSayyid Al-Hakeem Praises Iraqi Youth’s AI Achievement, Affirms Purposeful Digital Initiatives Support

Sayyid Ammar Al-Hakeem, Head of the National State Powers’ Alliance, met with the founders of the Ebda’a Club for Smart Skills and the Programming Club in Al-Najaf Al-Ashraf, and extended congratulations for the outstanding achievement of the Programming Club team at Al-Furat Al-Awsat Technical University, who earned the title of “Arab Champion” by securing first place in the “Ibtikar (Innovation)” Competition at the 16th Arab Robotics and AI Championship held in Tunisia.

His Eminence emphasized that this national accomplishment showcases the innovation and excellence of Iraqi youth and highlights the importance of supporting emerging talents in programming and AI. H.E. also stressed the need to invest in the younger generation, as they are the foundation of the country’s future.

Additionally, H.E. reviewed the “One Thousand and One Digital Children” initiative launched by the Ebda’a Club, which aims to offer free training in programming, robotics, and AI to children and adolescents aged 6 to 15. The initiative is designed to foster critical thinking, creativity, and problem-solving abilities, equipping the next generation to lead Iraq through the era of digital transformation.
