Sayyid Al-Hakeem Hopes Negotiations Lead to De-Escalation, Stability Restoration

His Eminence Sayyid Al-Hakeem, Head of the National State Powers' Alliance and Head of Al-Hikma National Movement, met a large gathering of female organizational leaders in Diwaniyah Governorate, noting that Al-Hikma project is a project of moderation, centrism, and prioritizing the public interest in the country, and recalling the roles the project has played at decisive junctures in modern Iraqi history, particularly the post-2003 period. H.E. pointed out that the strength of the project of moderation and centrism represents a strength for Iraq, calling for highlighting the Movement's identity and working with vigor and activity.

H.E. called for moving from the stage of outreach to the stage of impact, regarding the formation of a successful team as one of the criteria for evaluating an official, and stressing the importance of getting to know the project and its symbols and introducing people to it. H.E. also called for distinguishing between objectors, whether they are supporters, neutrals, or those confused about matters, and those with agendas who were harmed by the success and acceptance of the Al-Hikma project and seek to provoke it.

H.E. expressed hope that the current negotiations will lead to ending the escalation and restoring stability, calling for patience in the face of challenges, frustrations, and trials, and renewing his call to address the problem of weapons outside state authority through understanding and dialogue.
